

Dear FCC

Losing K-LOVE radio in this listening area would be a huge loss to our whole family. We have three young boys, ages 13, 11 and 8. This is the station THEY CHOOSE to listen to on the radio. As a parent, I don't have to be concerned about what they are being exposed to when they are listening.

The advocates of LPFM, obviously have absolutely no clue of the eternal benefits that this station provides to the local listeners. It is my belief that this station (K-LOVE) is of great public interest because this station provides positive and encouraging radio 24/7. With God's word and great christian music, countless numbers of people of all ages are ministered to, that otherwise would have nothing. Thank you for listening.

Sincerely,

William J Hensel Jr.
